**Editorial Board**

**How Financial Engineering Can Help Europe Go Green**

The EU wants to provide renewable-energy producers and electricity consumers with a hedge against volatile prices. It's a good idea, if properly designed.

---

**Chris Bryant** | Columnist

**Shunning Stocks and Hoarding Cash Is Harming European Wealth**

Failing to invest makes Europeans poorer and starves domestic companies of equity capital.

---

**Chris Hughes** | Columnist

**Blackstone Saw a Real Estate Win That London Missed**

Plans to create a UK industrial property titan in a hot market are well-played.
